AURANIA RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended June 30, 2015 (Unaudited)

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND BUSINESS CONTINUANCE

Aurania Resources Ltd. (the "Company") was incorporated under *the Companies Act 1981, Bermuda*, on June 26, 2007 under the name "Urania Ltd.". Aurania is an exploration company engaged in the search for mineral resources which could be economically and legally extracted or produced.

Since 2006, and through its 100% wholly-owned subsidiary AuroVallis Sàrl ("AVS"), the Company has been engaged in the exploration and development of certain exploration property interests in Switzerland (the "Properties"), more particularly described in note 4. The Company is exploring the Properties under government-granted permits and has not yet determined whether these Properties contain reserves that are economically recoverable.

Although the Company has taken steps to verify title to the Properties on which it is conducting exploration, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance of regulatory requirements.

As at June 30, 2015, the Company had cash of \$11,551 (December 31, 2014 - \$211,340 and current liabilities of \$65,333 (December 31, 2014 - \$34,367). Further, the Company had an accumulated deficit of \$6,188,368 (December 31, 2014 - \$5,950,556) and working capital deficiency of \$33,944 (December 31, 2014 – surplus of \$179,830).

During the six months ended June 30, 2015, the Company received \$26,700 as a short term loan. See notes 6 and 12.

The Company's ability to continue operations and fund its future exploration property expenditures is highly dependent on Management's ability to secure additional financing. Management acknowledges that while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. These interim financial statements do not include the adjustments that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material. As a result of the financial matters discussed in the preceding paragraphs, there is a material uncertainty that results in significant doubt regarding the ultimate applicability of the Company's going concern assumption.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard ("IAS") 34 - *Interim Financial Reporting* using the accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the IAS Board.

The accounting policies applied in these condensed consolidated interim financial statements are based on IFRS policies issued and outstanding as of the date the Board of Directors approved the statements (August 26, 2015). The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as those applied in note 2 of the Company's most recent annual consolidated financial statements for the year ended December 31, 2014 and have been consistently applied throughout all periods presented, as if these policies had always been in effect. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2015 could result in the restatement of these condensed consolidated interim financial statements.

(b) Basis of presentation

These condensed consolidated interim financial statements have been prepared on a historical cost basis using the accrual basis of accounting except for cash flow information. All amounts have been expressed in Canadian dollars, the functional currency, unless otherwise stated and CHF represents Swiss francs.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

For the three and six months ended June 30, 2015

(Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES, Continued

(c) Basis of consolidation

These condensed consolidated interim financial statements incorporate the financial statements of the Company and its wholly-owned subsidiary AVS, incorporated under the laws of Switzerland. All intercompany transactions, balances, income and expenses are eliminated upon consolidation.

(d) Significant accounting judgments and estimates

The application of the Company's accounting policies in compliance with IFRS requires the Company's Management to make certain judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. These estimates and assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that Management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- i). the inputs used in accounting for valuation of warrants and options which are included in the condensed consolidated interim statement of financial position;
- ii). the inputs used in accounting for stock-based compensation expense in the condensed consolidated interim statement of loss;
- iii). the nil provision for decommissioning and restoration obligations which are included in the condensed consolidated interim statement of financial position;
- iv). the existence and estimated amount of contingencies (note 11).

(e) Changes in Accounting Policies

The Company has adopted the following new and revised standards, along with any consequential amendments, effective January 1, 2015. These changes were made in accordance with the applicable transitional provisions. The nature and effect of the changes are explained below.

IFRS 8 - Operating Segments ("IFRS 8") was amended to require an entity to disclose the judgments made by management in aggregating segments. IFRS 8 was also amended to clarify that an entity needs to present a reconciliation between the total reporting segment's assets to the entities' total assets if this information is usually provided to the chief operating decision maker. The amendments are effective for annual periods beginning on or after July 1, 2014.

The Company conducted a review of the amendment to this standard and determined that it did not result in any material change to the consolidated financial statements.

IFRS 13 - Fair Value Measurement ("IFRS 13") was amended to clarify that the exception which allows fair value measurements of a group of financial assets and liabilities on a net basis applies to all contracts within the scope of IAS 39 or IFRS 9, regardless of whether they meet the definitions of financial assets or liabilities as defined in IAS 32. The amendment is effective for annual periods beginning on or after July 1, 2014.

The Company conducted a review of the amendment to this standard and determined that it did not result in any material change to the consolidated financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES, Continued

IAS 24 – Related Party Disclosures (“IAS 24”) was amended to clarify that an entity providing key management services to the reporting entity or the parent of the reporting entity is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity. The amendments to IAS 24 are effective for annual periods beginning on or after July 1, 2014.

The Company conducted a review of the amendment to this standard and determined that it did not result in any material change to the consolidated financial statements.

3. CAPITAL AND FINANCIAL RISK MANAGEMENT

Capital management

The Company considers the capital that it manages to include share capital, share premium, warrants, contributed surplus and deficit, which at June 30, 2015 was a deficiency of \$33,944 (December 31, 2014 - surplus of \$179,830). The Company manages its capital structure and makes adjustments to it, based on the funds needed in order to support the acquisition, exploration and development of mineral properties. Management does this in light of changes in economic conditions and the risk characteristics of the underlying assets. There has been no change with respect to the overall capital risk management strategy during the six months ended June 30, 2015.

The Company’s continued existence is dependent upon the ability to obtain the necessary financing to complete exploration and development, obtain necessary government approvals and attain profitable production. Management continues to evaluate and assess new project opportunities consistent with its growth strategy.

During the six months ended June 30, 2015, a director and principal shareholder of the Company advanced \$26,700 to the Company (the “Lender”), in the form of an unsecured, non-interest bearing, grid promissory note. At June 30, 2015, the Company does not have sufficient funds to continue operating in the normal course and continues to rely on short term loans to meet its ongoing financial commitments. See notes 6 and 12.

Financial risk management

The Company’s activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign exchange rate, and commodity price risk). Risk management is carried out by the Company’s management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors provides regular guidance for overall risk management. There have been no changes in the risks, objectives, policies and procedures during the reporting period.

(a) Credit risk

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company has no significant concentration of credit risk arising from its operations. Cash is held at select Canadian and Swiss financial institutions, from which management believes the risk of loss to be remote.

The Company does not have any material risk exposure to any single debtor or group of debtors.

(b) Liquidity risk

Liquidity risk arises through an excess of financial obligations over financial assets at any point in time. The Company’s approach to managing liquidity risk is to maintain sufficient readily available cash to continue operations and meet its financial obligations as they become due. As the Company has no producing assets, continued operations are dependent upon its ability to raise adequate financing in the market, through debt or by the disposition of assets.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

For the three and six months ended June 30, 2015

3. CAPITAL AND FINANCIAL RISK MANAGEMENT

(b) Liquidity risk, Continued

As at June 30, 2015, the Company had \$11,551 in cash to settle \$65,333 of current liabilities (December 31, 2014 - \$211,340 in cash to settle \$34,367 of current liabilities). Working capital will continue to fluctuate until the Company has achieved profitable levels of operations and profitability will not occur within the next twelve months; therefore Management will need to raise additional funds during the year to finance corporate and exploration expenditures.

(c) Market risk

Market risk is the risk related to changes in the market prices, such as fluctuations in foreign exchange rates and interest rates that will affect the Company's net earnings or the value of its financial instruments.

(i) Interest rate risk

Cash balances are deposited in highly-accessible and low-interest bank accounts that are used for short-term working capital requirements. The Company regularly monitors compliance to its cash management policy.

(ii) Foreign currency risk

Certain of the Company's expenses are incurred in Swiss francs ("CHF") and are therefore subject to gains or losses due to fluctuations in this currency. Management believes that the foreign exchange risk derived from currency conversions is best served by not hedging its foreign exchange risk. At June 30, 2015 and December 31, 2014, the Company's exposure to foreign currency risk with respect to amounts denominated in CHF, was substantially as follows:

	June 30, 2015	December 31, 2014
<i>In Canadian \$ equivalents</i>		
Cash	\$7,843	\$9,683
Trade and other payables	(2,341)	(5,254)
Net exposure	\$5,502	\$4,429

(d) Commodity price risk

Commodity price risk is defined as the potential adverse future impact on earnings and economic value due to commodity price movements and volatility. The ability of the Company to develop its mineral properties and the future profitability of the Company is directly related to the market price of gold, uranium, and other metal commodities.

Commodity prices have fluctuated significantly in recent years. There is no assurance that these metals will be produced in the future or that a profitable market will exist for them. As of June 30, 2015 and December 31, 2014 the Company was not a metals commodity producer.

(e) Sensitivity analysis

As of June 30, 2015 and December 31, 2014, both the carrying and fair value amounts of the Company's financial instruments are approximately equivalent due to their short-term nature.

Based on Management's knowledge and experience of the financial markets, the Company believes that a 10% strengthening of the Canadian dollar against the Swiss franc ("CHF") would have decreased the net asset position of the Company as at June 30, 2015 by \$550 (December 31, 2014 - \$443). A 10% weakening of the Canadian dollar against the same would have had an equal but opposite effect.

The Company, through its wholly-owned subsidiary AVS, holds a 100% interest in three exploration permits in Switzerland in the Canton of Valais (the "Canton") subject to a 3% gross value royalty payable to the Canton and a 0.75% gross value royalty payable to the surface rights holders, described as follows:

a) **Mont Chemin Project (gold-silver)**

On July 11, 2008, the Company was granted a five-year exploration permit known as the "Perimetre de Tête-des-Éconduits – Mont Chemin *Permis de fouille*" by a government department of the Canton. This permit was extended to June 30, 2015.

b) **Siviez Project (uranium-copper-gold-silver)**

On June 24, 2009, the Company was granted a five-year exploration permit known as the "Siviez-Plan du Fou – Col. des Mines *Permis de fouille*" by a government department of the Canton. This permit was extended to June 30, 2015.

c) **Marécottes Project (uranium)**

On July 11, 2008 the Company was granted a five-year exploration permit known as the "Perimetre de la Creusaz (Marécottes) Balaye (Finhaut) *Permis de fouille*" by a government department of the Canton. This permit was extended to June 30, 2015.

Permit Status

During the six months ended June 30, 2015 the Company filed applications for new five-year exploration permits for the above-described Projects. To date, the Canton Authority responsible for the issuance of the permits (the "Authority") has acknowledged and confirmed:

- i) the receipt of the permit applications;
- ii) that the financial and technical terms and conditions of the original permits exceeded standard International requirements; and
- iii) that in light of item ii), the Authority has 'frozen' the permits in order to a) preserve the priority of the Company and b) allow the Canton Geologist sufficient time to review and redraft new permits with more equitable financial and technical obligations.

6. PROMISSORY NOTES

During the six months ended June 30, 2015, the Company received a total of \$26,700 from a company controlled by a director and principal shareholder of the Company (the "Lender"). These advances are evidenced by a non-interest bearing grid promissory note that is repayable within 30 days of a written notice of demand by the Lender.

7. SHARE CAPITAL

- a) **Authorized share capital** at June 30, 2015 and December 31, 2014 is 1,000,000,000 common shares with a par value of \$0.00001 per share. All shares issued are fully paid.
- b) **Issued and outstanding common shares** at June 30, 2015 and December 31, 2014 - 22,759,735.

In accordance with National Policy 46-201 and the TSXV regulations, a total of 13,427,873 common shares, owned or controlled by the Company's principals, were deposited into escrow, to be automatically time-released over the 36 month period following April 17, 2013 (date of listing).

To June 30, 2015 a total of 9,397,465 (December 31, 2014 - 7,742,779) escrowed shares have been released and therefore 4,030,408 (December 31, 2014 - 6,335,094) escrowed shares are still held for release.

Additionally, TSXV seed share restrictions were imposed in connection with the Company's 2013 Initial Public Offering ("IPO") wherein 660,000 seed shares were also subject to hold periods for resale. A total of 10,000 seed shares were subject to a five-month hold period and have since been released while the remaining 650,000 seed shares are being automatically time-released over the 36 month period following the date of listing.

To June 30, 2015 a total of 454,901 (March 31, 2015 - 357,498) seed shares have been released and therefore 195,099 (March 31, 2015 - 292,502) seed shares are still held for release.

8. STOCK-BASED COMPENSATION

The Company maintains a stock option plan (the "Plan") for the benefit of directors, officers, employees and consultants. The maximum number of common shares reserved for issuance with respect to the Plan cannot exceed 10% of the issued and outstanding common shares of the Company at the date of grant. Stock options generally vest 1/3 annually.

- (i) During the six months ended June 30, 2015 and 2014, there were no new issuances of stock options under the Plan.
- (ii) On April 11, 2013, the Company granted 1,750,000 stock options to directors, officers and consultants. Each option is exercisable to acquire one common share at a price of \$0.40 until April 11, 2018. These options vested as follows: 1/3 on the grant date, 1/3 on April 11, 2014 and the remaining 1/3 on April 11, 2015. The value of \$521,184 assigned to the options was calculated using the Black-Scholes option pricing model using the following assumptions: expected forfeiture rate of 0%, expected dividend yield of 0%, expected volatility of 100%, a risk-free interest rate of 1.24% and an expected life of 5 years. On April 11, 2015 the balance of \$24,038 was recorded as stock-based compensation expense for the remaining unamortized value.
- (iii) On May 13, 2015, 30,000 stock options were terminated.
- (iv) On April 11, 2015, 350,000 broker warrants expired, unexercised.
- (v) The following summarizes the stock options/broker warrant activity during the six months ended June 30, 2015 and years ended December 31, 2014 and 2013:

	Number of Options/Broker Warrants	Weighted Average Exercise Price	Estimated Fair Value at Grant/Issue Date
Balance - December 31, 2013 and 2014	2,210,000	\$0.40	\$620,489
Granted/Expired/Terminated	(380,000)	\$0.40	\$(82,473)
Balance - June 30, 2015	1,830,000	\$0.40	\$538,016

- (v) The following summarizes the stock options/broker warrants outstanding at June 30, 2015:

Issued Number of Options and Broker Warrants	Exercisable Number of Options and Broker Warrants	Exercise Price	Expiry Date	Estimated Fair Value at Grant/Issue Date
80,000	80,000	\$0.40	July 13, 2016	\$16,832
1,750,000	1,750,000	\$0.40	April 11, 2018	\$521,184
1,830,000	1,830,000			\$538,016

The weighted average contractual life remaining for broker warrants and options as at June 30, 2015 is 2.7 (December 31, 2014 – 3.3) years. The above stock options and broker warrants were not included in the computation of diluted net loss per share for the periods presented as they are anti-dilutive.

Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Volatility is based on the historical volatility of comparable companies. Changes in the underlying assumptions described in note 8 can materially affect the fair value estimates.

10. SEGMENTED INFORMATION

At June 30, 2015, the Company's operations comprised a single reporting operating segment engaged in mineral exploration in Switzerland. Cash of \$3,708 (December 31, 2014 - \$201,657) is held in Canadian chartered banks, with the balance of \$7,843 (December 31, 2014 - \$9,683) being held in Swiss chartered banks.

11. COMMITMENTS AND CONTINGENCIES

Environmental Contingencies

The Company's exploration activities are subject to various federal, cantonal and international laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations.

On March 31, 2010, a director and principal shareholder of the Company lodged a five-year 500,000 CHF bank guarantee (Cdn\$661,000) in connection with any potential reclamation costs to be incurred by the Company. This was a condition of the Company's Swiss exploration permits (see also note 4). Upon expiry of the permits the bank guarantee was terminated, however effective January 1, 2015, the Company provided a CHF 2,400 deposit with the Forestry Authority for any potential reforestation costs and is unaware of any other known environmentally assessed costs.

Service Costs and Consulting Agreements

Effective January 1, 2013, the Company entered into a service costs agreement with Geosource at a monthly cost of \$15,800. See note 9. This agreement may be terminated by the Company with 90 days' written notice provided to GEI of the Company's intention to terminate the agreement.

Since January 1, 2013, the CFO and Project Manager of the Company have been providing services pursuant to annual, renewable consulting agreements. Accordingly, the CFO is remunerated at the rate of \$60,000 per annum (plus applicable taxes) and the Project Manager is contracted on an 'as needed' basis and compensated at a rate of CHF 545 (Cdn\$720) per diem. Early termination of the contracts requires 90 days' written notice by the party terminating the agreement therein.

12. SUBSEQUENT EVENT

Subsequent to June 30, 2015 the Company has received further short term loans totaling \$40,800 from the Lender. See note 6.
